Profile

I am organised, efficient and hard working person willing to discover and accept new ideas which can be put into practice effectively. I am a good listener and learner, able to communicate well with a group and on an individual level. I am able to motivate and direct my talents and skills to meet objectives.

Work Experience

July 2024 - Present

- **SOFTWARE ENGINEER**

Mobiteq Payments Pvt Ltd, Noida

At Mobiteq , I worked as a Jr. software engineer with a strong command of ASP.NET Core MVC for building dynamic, scalable, and highperformance web applications. With a solid foundation in computer science and a talent for problem-solving, & specializes in developing robust backend systems and integrating them seamlessly with intuitive frontend designs.

Oct 2024 - Mar 2024

- **APPRENTICESHIP**

Techpile Technology Pvt Ltd. , Lucknow

At Techpile, I did month apprenticeship course , where I learned Asp.Net MVC Framework,C# for backend and For Frontend I learned HTML,CSS, Javascript,Bootstrap and JQuery and for database I used Ms Sql Server

Aug 2022 - Sep 2022

- **SUMMER TRAINING**

Techpile Technology Pvt Ltd. , Lucknow

During 45 Days Summer Training, At Techpile , I got to learn about principles of Web Devlopment and also learned Python with DJANGO

PROJECTS

- **Health center**

Developed and implemented an online appointment booking system for a Health Center to streamline the patient appointment scheduling process. The system allows patients to book appointments easily, and admin users can approve or reject the appointments based on availability. The admin can also provide a specific date and time for each approved appointment.

- **MAKEOVER MANTRAS**

Developed a dynamic e-commerce platform called "Makeover Mantras" focused on beauty products. The website allows users to browse and select a wide range of beauty products. In addition, the site provides detailed beauty tips and tutorials for each product, helping users understand how to use them effectively. The platform includes a dynamic and interactive user experience with features such as product selection, a form submission for purchasing products, and real-time data updates.
